

Tech Mahindra Receives the Prestigious AICRA STEM Awards for Excellence in Automation

Tech Mahindra Recognized as the Best Automation System Integrator in the Industry

New Delhi, April 19, 2018: Tech Mahindra, a leading provider of digital transformation, consulting and business re-engineering services and solutions won the coveted All India Council for Robotics & Automation (AICRA) STEM Awards for achieving Excellence in Automation competing with 14 top businesses in the emerging technologies segment.

The award was presented at India's 1st STEM (Science, Technology, Engineering, and Math) Summit held at New Delhi Municipal Council (NDMC), Convention Centre, New Delhi in the presence of dignitaries from across the industries, with Dr. Rajiv Sharma, Secretary Science and Engineering Research Board (SERB), Department of Science & Technology, Government of India as the Chief Guest.

Tech Mahindra was adjudged winner on the basis of rigorous assessment on varied parameters like objective and strategy behind the digital tools, innovative usage to meet social and business challenges, originality of the idea, revenue generation, captured market share among others.

"This award is a recognition of Tech Mahindra's seamless efforts to make Automation and AI mainstream with our associates, who are in the forefront of driving Digital Transformation agenda for our customers. Tech Mahindra is deploying best-in-class technologies and platforms to accelerate these transformations, by collaborating and co-innovating with startups, academia and partners," said **George Mundassery, Global Head - AI & Automation, Tech Mahindra.**

"AICRA STEM Awards aim at building the future excellence of Robotics Education and developing Eco-system for robotics technology by felicitating achievements of Indian educational institutions, individuals and service providers for improving the quality of Education delivery in India, through visionary thinking, process innovation and disruptive technology. Such technology conferences and recognitions are efforts towards inspiring technology contributors to build more on the nation building agenda and create a digital future," said **Raj K. Sharma, President, AICRA.**

As part of its TechMNxt charter, Tech Mahindra continues to build and apply powerful technologies like AI, Blockchain, Cybersecurity & AI-powered IoT solutions, to address the evolving and dynamic needs of our customers. AQT (Automation-Quality-Time) is Tech Mahindra's platform to drive Intelligent Automation, powered by Robotics, Analytics and Artificial Intelligence.

About AICRA - All India Council for Robotics & Automation

All India Council for Robotics & Automation (AICRA) is a leading, global and non-profit organization that is setting the standard for robotics and automation by helping over 35,000 worldwide members and other professionals to solve difficult technical problems, while enhancing their leadership and personal career capabilities. It aims to promote robotics, automations and other

new technologies skills development by catalyzing creation of large, quality, for profit vocational institutions. AICRA provides technical support systems to institutions such as quality assurance, Information systems and train the trainer (TTT) academies either directly or through partnerships. To strengthen supplementary skill development, AICRA focuses on fostering private sector led efforts that include both non-profit and for-profit initiatives with the goal of building models that are scalable.
