

Tech Mahindra Partners with the US-based LIFARS for Digital Forensics & Incident Response Cyber Security Platform

Leading global digital transformation services provider collaborates with US-based cyber security digital forensics and incident response firm, for Advanced Managed Threat Detection & Response Services

New York, New Delhi – July 2, 2018: Tech Mahindra, a leading provider of digital transformation, consulting and business re-engineering services and solutions, announced today a strategic partnership with LIFARS, LLC, a New York City-based cyber security digital forensics and incident response firm, to premier an elite Advanced Managed Threat Detection and Response Service for their customers.

Tech Mahindra's Security Operations Center (SOC) offering and LIFARS' incident response service will be combined to innovate and create new services in specific areas of threat detection, mitigation, incident management and integrated cyber resilience.

"LIFARS and Tech Mahindra's partnership is aimed at addressing the growing needs of customers to combat the rampantly increasing number of cyber threats. By leveraging the combination of LIFARS' world-class team of elite cyber security specialists for incident response services, and the expertise of Tech Mahindra's skilled SOC (Security Operations Center) analysts, we will develop an enhanced cyber breach and emergency response service offering," **said Rajiv Singh, Global Head of Enterprise Security & Risk Management, Tech Mahindra.**

"We are very pleased to enter into a strategic partnership with Tech Mahindra in the cyber security space. This is a testament to the quality of our service and position in the US, as a leader in the field of digital forensics and cyber resiliency. This collaboration will further help us expand our capabilities and reach," **said Ondrej Krehel, CEO & Founder of LIFARS.** "Today, the market clearly recognizes the immense need for companies to implement thorough cyber security measures on-site. Tech Mahindra's operational skills and reach in SOC delivery, combined with LIFARS' in-depth cyber security knowledge will bring robust solutions and new innovation to the cyber security marketplace", he added.

Tech Mahindra is on a mission to develop and serve the cybersecurity market space across the globe. This partnership augments well with the larger Tech Mahindra strategy of delivering excellence and value in the cyber security space under the TechMNxt charter.

About LIFARS

LIFARS is the global leader in Digital Forensics and Cyber Resiliency Services. Our experience spans decades working on high profile events often in coordination with law enforcement agencies around the world. Our methodology derives directly and indirectly from our experience working with and for US Intelligence Agencies, Interpol, Europol, and NATO. We are solely dedicated to Cyber Resiliency and remain attentive to all aspects of our client's engagement experience while providing a strategic and integrated array of services to minimize risk, disruption and maximize the benefits from your cyber investments.
