

MANISH VYAS

President, Communications, Media & Entertainment Business, and the CEO, Network Services

Manish Vyas is the President, Communications, Media & Entertainment Business, and the CEO, Network Services, at Tech Mahindra – the Technology arm of the Mahindra Group. An accomplished leader with extensive expertise and experience across global markets, Manish has led large and diverse global programs during his 25-year career. He is known for his ability of building high performance teams, and for driving profitability & growth through innovative solutions & go-to-market strategies.

He has been associated with Tech Mahindra for more than 18 years and played a key role in taking Tech Mahindra's Telecom services business to wider geographies and a diverse clientele. He has been involved in creating the strategic direction to the Telecom business and in driving various Organic & Inorganic growth initiatives. In recent times, he has been busy putting together Tech Mahindra's 'Network of Future' strategy including in-house platforms and global partnerships. Manish has co-authored Technology papers on 'Network Innovation' with CXOs of Networks-based companies, and published several blogs on the Future of the CSPs as here –

ET Telecom - The 5th Wave of Networks

Telecom of the Future Blogpost

Some of his recent Media interactions are listed here –

TelecomTV Interview on the 'Telecom Infra Project'

TIA NOW interview on AI in Virtual Networks

Apart from his association with Tech Mahindra, Manish has also been identified as one of the future business leaders at the Mahindra Group, as part of the 'Future Leadership Program'. He consistently contributes to the Group's Innovation Council named 'M-101'.

Manish was brought up in Nagpur in Central India and is currently based out of Dallas, USA with his family. When not busy traveling meeting customers and building teams, Manish likes to maximize his free time with his two daughters and watch as much classic Hindi cinema & highlights of legendary Cricketers.

Manish completed his Masters in Business Administration (Marketing) from NMIMS, Mumbai and Electronics Engineering from Nagpur University.
